

From my understanding, LPFM service could be replacing my current FM Translator service radio stations. I implore you not to do this disservice to our local community. I am a financial supporter of KLOVE, which has 3 local area stations - 94.7, 94.9 and 105.3FM. I have listened to these stations for years as I am traveling around the greater Memphis area. I enjoy knowing that if I need prayer, all I need to do is call their station. I have won a couple of contests of theirs and feel as though the people there are my friends. They are the stations that I recommend to my friends and many of friends are also avid listeners. Please do not limit free speech, and free enterprise in this way. Thank you for your time.
